TechLine[®] MFG. ... *Supporting future industry today*

• Complete Cable Tray System

The Snap Track System protects your cables from the control room to the instrument and all points in between, including drops, brick panels and at the instrument stand.

• UL Classified

Snap Track products are UL Classified as an EGC, as well as manufactured to meet current NEMA and NEC Standards.

• Ease of Installation

The Snap Track System is designed to be installed without bolts or tools using a patented push pin.

• Superior Strength

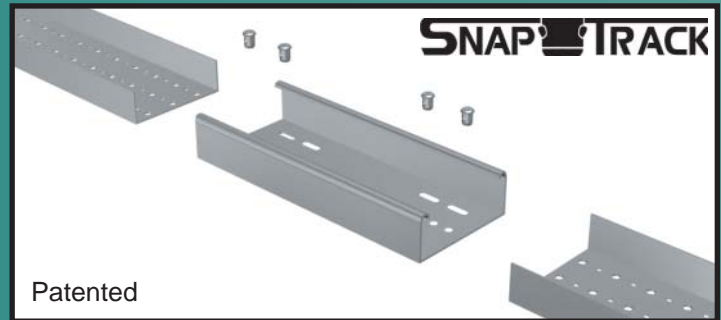

Solid side rail fittings with inward "C" configuration provide superior strength, support and cable protection.

• Quality Tested

Snap Track products are designed, manufactured and quality tested to the tightest tolerances in the industry by using extruded construction.

• On Site Training Included for Projects

Save on total installed cost using labor-saving Snap Track cable trays.
